

# KRISH BAKSHI

✉ [krishbakshi23@gmail.com](mailto:krishbakshi23@gmail.com) | [in](#) [LinkedIn](#) | [GitHub](#) | [X](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

---

**Data Scientist** with over 1+ years of experience in building and deploying scalable AI solutions across **Computer Vision, Time-Series Forecasting, AI Automation(Vision & Speech) and Generative AI**. Proven track record of driving business impact and developing high-accuracy predictive systems using cutting edge **SOTA AI models**. Expert in the full ML lifecycle, from data engineering on **Azure Databricks** and **BigQuery** to deploying full-stack AI applications using **FastAPI, Docker, and AWS or GCP**. Multilingual professional (**JLPT N3** Japanese) with strong leadership experience in bilingual technical environments.

## WORK EXPERIENCE

---

### **DATA SCIENTIST** *Nasiwak Services India Private Limited*

07/2025 – Present

- **Automated floor-plan analysis** by deploying CV models in Selenium bots, reducing manual effort by **80%**, achieving **87.89% mAPE**, and scaling to **10,000+ orders/month**.
- **Built blueprint CV pipeline** using **YOLO + SAHI** for **85+ small electrical symbols**, managing a **5-member bilingual team** through **200+ hrs of labeling/augmentation**, achieved **83.71% mAPE**.
- **Developed and deployed MVP** with React, Next.js, FastAPI, and Docker; launched on **AWS EC2** for pre-sales users to test real-time blueprint editing and prediction.
- **Created AI karaoke pipeline** (yt-dlp, UVR, Whisper, FFmpeg) generating videos in **<5s**, and engineered a **C++ backend** for real-time autotune with **±1ms latency** and **80% noise reduction**.

### **DATA SCIENTIST INTERN:** *Nasiwak Services India Private Limited*

04/2025 – 07/2025

- [AutoMailAI](#) my **AI Agent** helped me secure this internship opportunity through **LinkedIn outreach**.
- Developed **object detection pipelines** for floor plans data extraction **saving 60% manual effort**, using **YOLO** and **OpenCV** achieving **mAPE-0.5 82.06%** in production.
- Backed by a Japanese organization, contributed to delivering technical documentation to technical and non-technical stakeholders in **English** and **Japanese**.
- Integrated custom AI/ML pipelines into **Selenium**-based automation solutions for automated Invoice generation, making the process **faster** and **reliable**.

### **DATA SCIENCE INTERN:** *Metafied (Formerly PROFCESS)*

07/2024 – 01/2025

- Incubated by **Harvard Innovation Labs** and mentored by ex-IIT and ex-Harvard founder & senior staff.
- **Engineered and deployed scalable data pipelines** for time-series forecasting on **Azure Databricks**, leveraging **PySpark & ETL workflows** to streamline ingestion into cloud-based data lakes.
- **Built and optimized** an **XGBoost** model achieving **92.81% accuracy on regular sales** and **86.79% on promotional sales**, by engineering advanced features around **inventory, logistics, past sales and regional weather forecasts**.
- Experimented with **auto-regression models** **ARIMA**, and **SARIMA**, enhancing the accuracy of predictive insights for future sales.
- Developed data queries to surface insights and trends from large datasets from **BigQuery**, worked on various projects involving Time series, Computer vision, and LLM-based applications.

### **RPA INTERN:** *PROAZURE SOLUTIONS PVT LTD*

12/2023 – 01/2024

- Led a team to design and implement Robotic Process Automation (RPA) solutions, driving automation initiatives for repetitive tasks.
- Automated workflows, including web scraping, online data collection, and Excel automation, leading to a **30% improvement** in task efficiency.

- Led a team of developers in building a dynamic website, overseeing both frontend and backend development processes.
- Managed database design and real-time connectivity using phpMyAdmin and Wamp Server, ensuring seamless data flow between the server and client-side application.

## RESEARCH & PUBLICATIONS

---

*Krish Bakshi, Sunil Bade, Mayur Bhand, Siddhesh Dhindale, Dr.H.B.Jadhav: Crop Classification using Convolutional Neural Network | IJSREM Accepted in February 2025 DOI:10.55041/IJSREM41238*

## PROJECTS

---

**AutoMailAI:** *Python, Gemini 2.0 Flash, Gradio, Gmail API, AI Automation.*

[\[Link\]](#)

- Built an AI-based tool for personalized cold email generation using prompt engineering with dynamic templates, enabling tailored outreach for Jobs & Internships from user inputs and resumes.
- Designed a Gradio interface with single & batch processing (Excel), automated DOCX & ZIP generation, and integrated Gmail API for auto-drafting emails at scale.

**ImaginAIry:** *Python, Stable Diffusion XL, Gemini 2.0 Flash, Gradio, Text-to-Image.*

[\[Link\]](#)

- Built a text-to-image generation pipeline using Stable Diffusion XL with prompt augmentation via Gemini 2.0 Flash.
- Fine-tuned Gemini API on a custom prompt dataset for improved image description generation.

**SEC Filings QA Agent:** *Python, Langchain, ChromaDB, Gemini, Streamlit, Financial RAG*

[\[Link\]](#)

- Built an end-to-end RAG pipeline using *Langchain* and *ChromaDB* to automate the extraction of insights from complex SEC filings (10-K/10-Q), streamlining financial document analysis.
- Developed a responsive Streamlit interface for real-time natural language querying of financial data, leveraging advanced indexing to handle both unstructured text and tabular data.

**AI Integrated Analytics Dashboard:** *Python, PySpark, BigQuery, Gemini, Streamlit, Plotly.*

[\[Link\]](#)

- Designed and deployed a live analytics dashboard using Streamlit, integrated with Gemini to summarize key performance indicators (KPIs).
- Utilized PySpark to surface trends and retrieved data from a BigQuery data lake for efficient analysis.

## SKILLS

---

- **Programming Languages:** Python, SQL, C/C++, Javascript, Typescript, HTML, CSS.
- **Data & Visualization:** PySpark, Pandas, Matplotlib, Seaborn, Plotly.
- **ML & DL:** PyTorch, TensorFlow, Scikit-learn, OpenCV, HuggingFace, MLflow, langchain, LlamaIndex.
- **Web Frameworks:** React.js, Next.js, Node.js, Vue.js, Tailwind.
- **Databases:** PostgreSQL, MySQL, Pinecone, FAISS, Qdrant, ChromaDb.
- **API/Deployment:** Flask, FastAPI, Django, Docker.
- **Cloud Platforms:** Azure Databricks, AWS EC2, GCP, BigQuery, Weights & Biases.
- **Version Control:** Git, GitHub.
- **Languages:** English (Full professional), Japanese (JLPT N3), Hindi, Punjabi, Marathi (Bilingual).

## EDUCATION

---

**SAVITRIBAI PHULE PUNE UNIVERSITY** || Pune

*Bachelors of Computer Engineering [BE Computer]*

**Relevant Coursework:** Data Structures and Algorithm, Probability and Statistics, Machine Learning.
